[engineering.tomorrow.together.](https://www.thyssenkrupp.com/en/Engineering/Engineering-tomorrow-together)

For a second year running, we have achieved **“Zero LTI” Safety Record** across all our operating sites and offices. This is a tribute to our efforts in safety and our diligent efforts at following safety protocol, with due regard to our role as custodians of our customer’s investments and personnel, and our concern for the environment. We thank our customers, contractors, teams and other stakeholders for their collaboration and contributions to our safety success! Click the attachment for the statistics!
