

# Safety Milestone of 7 mio man hours at GNAL Project site, Dahej, Gujarat, India

A Safety Milestone of 7 mio man hours for our Chlor-Alkali Project was recorded at our GNAL site, at Dahej, Gujarat, India. A Certificate of Appreciation (see above) was handed over to our team at the site by the Customer.

The Certificate was received from and Mr Kirti Vaidya, Complex Head for GNAL (see image below) in the presence of the CEO – GNAL Mr Ketan Shah.

tkIS India is implementing the grassroot Caustic Soda project at the customers site on Lumpsum Service basis. The 800 TPD Caustic Soda plant will be the largest single-train facility in the country.
