

Coromandel International inaugurates their Phosphoric Acid plant...

Mr PV Chepe, CSO-T is felicitated by Mr MM Murugappan, Chairman – Coromandel International at the inauguration. At left is Mr Sameer Goel, Managing Director of the company...

Coromandel International recently inaugurated the 450 TPD Phosphoric Acid plant at their Vishakhapatnam plant in Andhra Pradesh, India. The plant was successfully commissioned by us in Sept 2019, and is performing satisfactorily. The scope of the contract, which was awarded in 2017, included arranging of license, know how, Process Design Package, Basic and Detail Engineering, Project Management, Technical Procurement and Supervision during Construction, Start-up and Commissioning.

The plant is based on the Di-Hydrate technology of Prayon, Belgium.

Mr Parag Chepe, our CSO Technologies – Fertilisers, Electrolysers and Polymers, who attended the inauguration ceremony, was felicitated by Coromandel International's senior Management.
