

IOCLParadeep construction site completes 2 million safe man hours...

Our IOCL BS VI project site at Paradeep has completed 2 million safe man hours without Lost Time Incident (LTI). A Certificate of Appreciation (see above) was handed over to our Mr Gautam Mahanta, RCM and Mr Sahabuddin Ahmed, HSE-Manager at the site by the Customer.

We are implementing the BS VI Quality Upgradation project at the customers site on EPCM basis. The project involves a Hydrogen Generation Unit, Kero Hydro Desulphurisation Unit, DHDT Unit (revamp) and a VGO HDT Unit.

Kudos to our Construction and Safety Teams at site on achieving this milestone.
