

# GNAL Caustic Soda site notches 4 million safe hours record. Customer hands over Appreciation Certificate...

Our GNAL Caustic Soda project site at Dahej, Gujarat has completed 4 million safe man hours without Lost Time Incident (LTI). A Certificate of Appreciation (see above) was handed over to our team at the site by the Customer.

The Certificate was received from GNAL CEO Mr Ketan Shah and Mr Thomas Varghese (see image below).

We are implementing the grassroots Caustic Soda project at the customers site on Lumpsum Service basis. The 800 tpd Caustic Soda plant is the largest single-train facility in the country.

Kudos to our Construction and Safety Teams at site on achieving this milestone.

## Business Development, 01.09.2020
