

Indian Oil Corporation awards EPC-LSTK contract for n-Butanol plant to thyssenkrupp

thyssenkrupp has been awarded an EPC-LSTK contract by Indian Oil Corporation to design and construct an n-Butanol plant at their upcoming Oxo-Alcohol petrochemical complex at Dumad, Gujarat, India.

thyssenkrupp Industrial Solutions India, the Indian group company of thyssenkrupp's Chemical & Process Business Unit, which won the project in a global bidding process, will implement the contract on Engineering, Procurement and Construction (EPC) basis for the 90 KTPA n-Butanol plant.

The project has a completion period of 23 months.

Speaking on the occasion of thyssenkrupp being awarded the contract, **Dr Sami Pelkonen, CEO BU CPT** said : 'Indian Oil Corporation has been one of the most influential organisations in the refining and petrochemicals space in India, and it is a matter of pride for thyssenkrupp to be awarded this project for their upcoming Oxo-Alcohol complex. We will leverage our expertise and experience in the refining and petrochemical fields by ensuring we hand over a well-designed and constructed plant.'

Mr PD Samudra, CEO & MD thyssenkrupp Industrial Solutions India said: 'We are honoured to be entrusted with this project by Indian Oil Corporation, who has been our most prestigious customer in India. Our association with them spans two decades and covers over 20 projects for their complexes across India. We are committed to partnering with Indian Oil on this project, and helping them realise their project plans.'
