

Evacuation Plan

Health, Safety and Environment (HSE) Policy

Statement by the Executive Board

It is the aim of thyssenkrupp Industrial Solutions (India) Private Limited to provide solutions for engineering, procurement, construction and service of chemical and other industrial plants, which are optimized with regard to plant safety, reliability and sustainability to protect the environment.

We consider safe design of plants to be an integral part of the quality of services to our customers, and are committed to our responsibilities towards Health, Safety and Environment (HSE).

We are committed to provide a safe workplace to ensure prevention of accidents, injuries and ill health to our employees and any other persons directly associated with our business, visiting the workplace.

We are committed to comply with relevant Regulatory, Customer and other requirements, applicable to our business.

The Executive Board assumes the responsibility of promoting a culture and atmosphere for development, implementation, effectiveness, evaluation and continual improvement of the HSE Management System.

We therefore set and monitor HSE objectives and provide necessary leadership, commitment and resources.

All our Managerial staff regard HSE as a management responsibility. They are obliged to instruct and motivate their subordinates accordingly, to ensure effective implementation of HSE Management System and awareness of their responsibilities towards HSE.

Visitor Information

Welcome

thyssenkrupp

Dear Visitor,

We follow all recommended safety protocols, guidelines and advisories by the regulatory authorities to ensure you and our employees remain safe in the Covid pandemic, whilst in our premises.

These protocols are displayed at various locations in our premises.

We request that you kindly comply with these protocols at all times in the interests of everyone.

Thank You!

thyssenkrupp Industrial Solutions
(India) Private Limited
i-Think Office

To be returned to our Security along with the Visitor Pass, duly signed by your host.

Registration

All Visitors are required to register themselves at the Security Desk on the 3rd Floor, and obtain a Visitor as well as an Entry Pass. Generally, personal data equipment like laptops / data cards etc., have to be declared at the time of registration. Further information will be provided by the Reception Desk on the 3rd Floor.

Personal Belongings

Visitors are responsible for their personal effects, equipment and belongings, and hence are advised to take necessary precautions for their safekeeping and handling. The Management will not be responsible for the damage or theft thereof, even in the unlikely event of such occurrence.

Waste Disposal

Kindly ensure that only dry waste is disposed in the waste paper baskets provided in the common areas and with every workstation. Do not dispose wet waste like food material in the waste paper baskets. For wet waste / food material, kindly use the bins provided in the restrooms.

No Smoking

Smoking is strictly prohibited in all areas of our offices. Those desirous of smoking must do so, after exiting the building premises.

Fire

Our offices are fitted with smoke detectors and fire hydrant systems. Additionally, at strategic locations on every floor, emergency Evacuation Plans are displayed.

In the event of fire, the fire alarm hooter will sound. DO NOT PANIC. DO NOT USE THE LIFTS. In the event that evacuation is necessary, a specific announcement / instruction will be heard over the PA System. Accordingly, move quickly and in an orderly fashion USING THE STAIRCASE NEAREST TO YOU. Exit the building to the Assembly Point.

First Aid

A First Aid kit is available with the Security on the 3rd Floor. Kindly dial 3604 / 3605 on the intercom for help. In case you are feeling unwell, please inform your host immediately. A Doctor is available for consultation in the office on every working Monday & Wednesday between 9 am and 11 am on the 4th Floor. The closest multi-speciality Hospital is located at a distance of 5 kms from our office.
