Plastic Shapes for the Power Distribution Industry

thyssenkrupp

thyssenkrupp Engineered Plastics Advantage

For more than 40 years, thyssenkrupp Engineered Plastics has offered customers throughout North America quality products, competitive pricing and an unsurpassed level of service by supplying industrial plastic shapes, standoff insulators, and pultrusions for highly technical industries, such as semiconductor, aerospace, and medical from the world's leading manufacturers including: DuPont, Mitsubishi, Ensinger, Röchling, and many others.

By combining our expertise in the plastics industry with the nationwide logistics network of the thyssenkrupp Materials NA group, we can provide our broad array of plastics inventory complemented by expert sales and applications assistance to industrial plastics users all over North America. So make the call today to 877.246.7700 and discover for yourself what thyssenkrupp Engineered Plastics can do for you.

Value-Added Processing Capabilities

Take advantage of our value-added capabilities as well as our extensive experience.

NC Sawing

thyssenkrupp Engineered Plastics offers precision sawing services on all materials using state-of-the-art NC equipment.

CNC Vertical Machining

Our state-of-the-art CNC vertical machining centers can drill and tap holes, mill down top and side surfaces, mill angles, radius edges countersink, and counter bore.

CNC Turning

Our CNC lathe with live tooling can turn down OD and bore out ID, drill and tap holes on the OD, drill and tap holes in the ID, mill flat surfaces on round bar, mill angles on round bar, make square rod round, radius edges, and cut-to-length.

CNC Routing

Our dual-head CNC routers allow us to run two identical parts on the same machine at the same time for increased efficiency. A vacuum table holds the work piece without clamps or vises. Capabilities include circles, discs, square or rectangular parts, mill down surfaces, radius edges, drill, countersink, and counter bore holes.

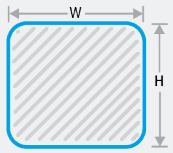

Fabrication Services

Working closely with customer design and material engineers, thyssenkrupp Engineered Plastics offers additional value by fabricating, polishing, bending, and gluing parts to exact customer specifications. Our customers save both valuable time and money by having these first-stage processing steps completed and delivered just in time to their door.

Power Distribution Specialties We Serve

We provide products for highly technical industries such as electrical, switchgear, transformer, panel board, and induction heating.

Induction Heating

SG-200 Grade Sheet
GPO-3 Grade Sheet
GPO-3 Grade Angles
GPO-3 Grade Channels
High Pressure Laminates

Switchgear

GPO-3 Grade Sheet
GPO-3 Grade Angles
GPO-3 Grade Channels
Standoff Insulators
Electrical Grade Polycarbonate
Copper Busbar
ITW Formex® FR Polypropylene

Transformer

GPO-1 General Purpose Sheet (TSF Grade)
SG-200 Grade Sheet
Flexible High Temperature (FHT) Grade Sheet
GPO-2 Grade Sheet
GPO-3 Grade Sheet
GPO-3 Grade Angles
GPO-3 Grade Channels
GPO-3 Grade Hat Channels
GPO-3 Grade Terminal Strips
Standoff Insulators
Dogbone Rod
Rectangular Bar

Panel Board

GPO-3 Grade Sheet
GPO-3 Grade Angles
GPO-3 Grade Channels
Standoff Insulators

Sheet Products

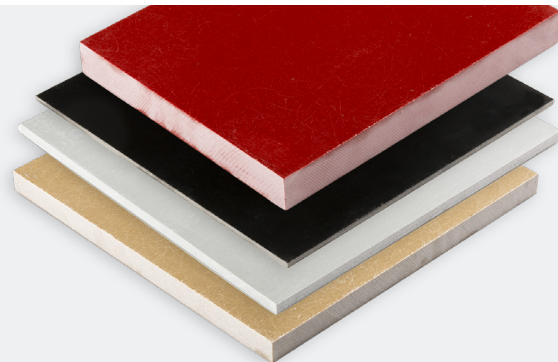

GPO-1 TSF / ETS
GPO-1 T-160 High Strength
SG-200 / HSTII
FHT / H515
GPO-2 / ETS FRII
GPO-3 / H900
1130 Transit Grade
UL94 Polycarbonate
PTFE / Teflon™

Colors: Red, White, Black, Grey, Brown, Natural/Tan

Sheets and Custom Sizes

GPO 1, 2, 3, 1130 Transit Grade, SG-200 High Temp, and Heat Resistant materials are produced using polyester resin and fiberglass reinforcement and are UL recognized.

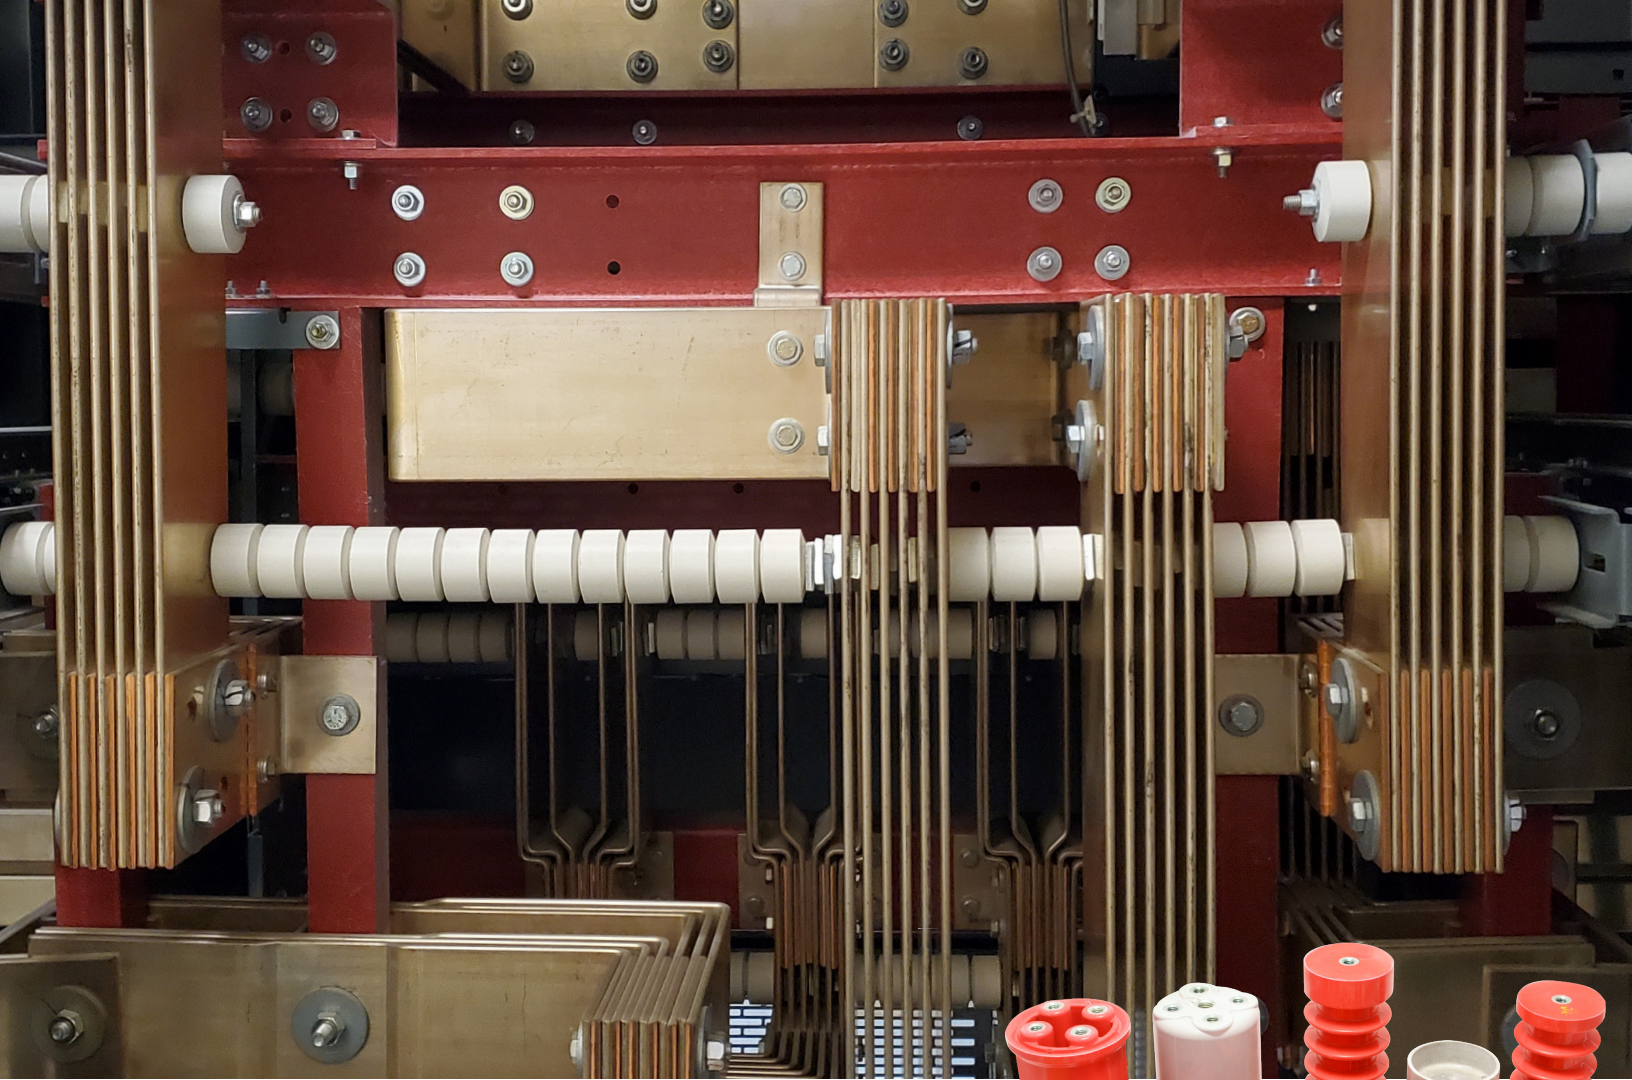

Full GPO sheets available

Sizes: 36" x 72" & 48" x 96"

Thicknesses: 1/32" to 2"

We also cut to size. Call today for a quote: 877.246.7700

Standoff Insulators

thyssenkrupp Engineered Plastics is the leading North American supplier for the full MarBal® and Glastic® brand portfolios.

High Pressure Laminates

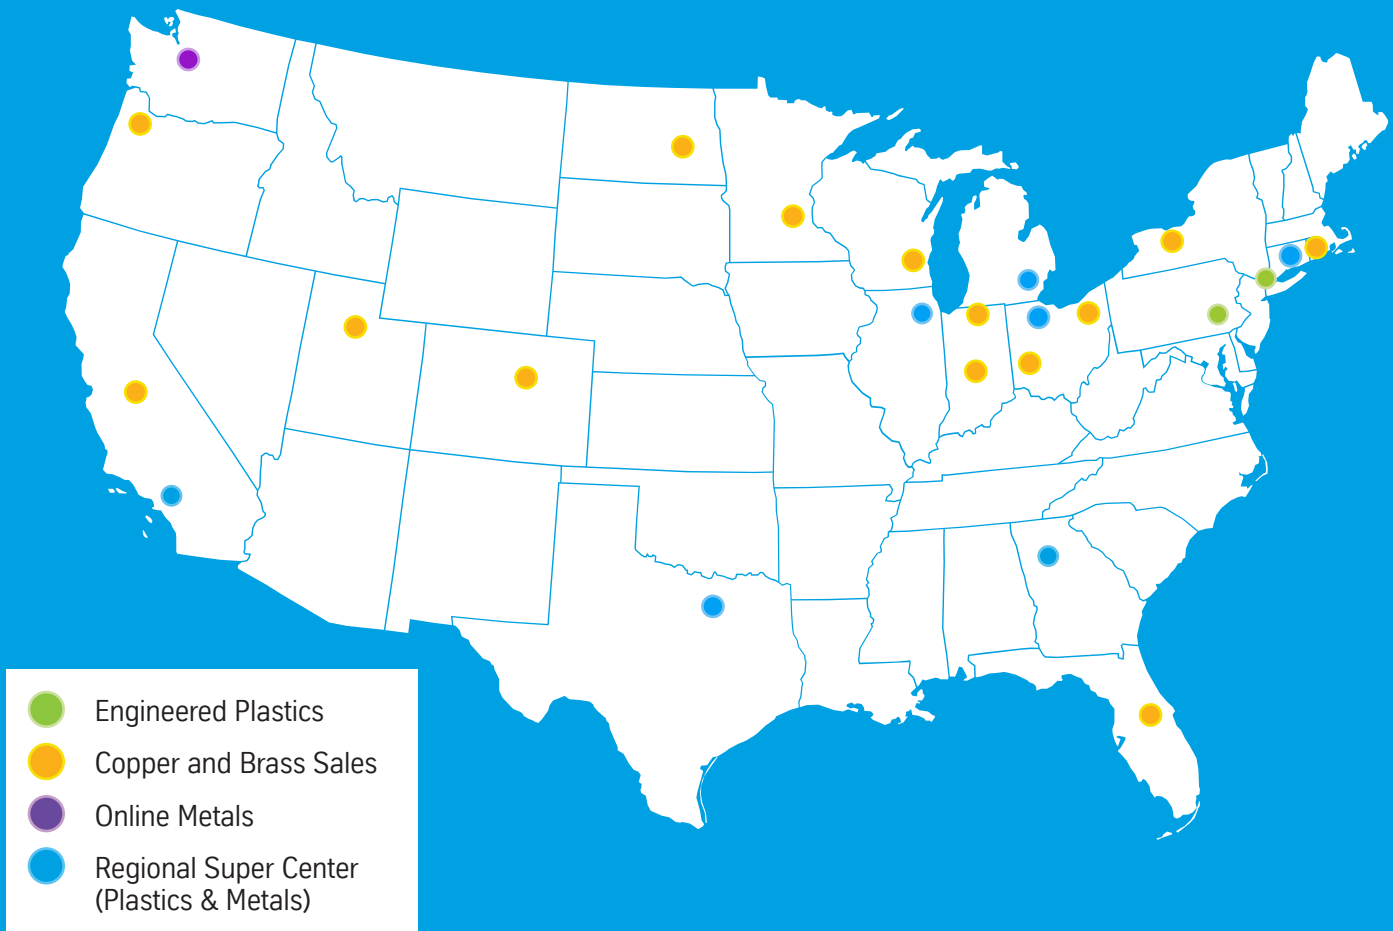

C, CE Composites	Copper Clad Extren®	Fiberglass Fishpaper	FR-4 G-3	G-5 G-7	G-9 G-10	G-11 L, LE	Micarta® Phelonics	Vulcanized Fibre X, XX, XXX	XP, XPC
---------------------	------------------------	-------------------------	-------------	------------	-------------	---------------	-----------------------	--------------------------------	---------

Pultrusions

GPO-3 Angles	GPO-3 Terminal Strips	Dogbone Rod MTS / Polyester	Rectangular Rod MTS / Polyester
GPO-3 Channels	GPO-3 Tubes	Dogbone Rod SG-200 / Supersil	Rectangular Rod SG-200 / Supersil
GPO-3 Hat Channels	Pultruded Tubing
