

PROJECT HIGHLIGHT:

FINISHED VEHICLE REWORK

NATIONAL WARRANTY DEPLOYMENT PROGRAM

- tkSCS partnered with a bus manufacturer on a nationwide warranty deployment program
- Involved rework on over 6,800 units
- Led a national Bracket Rework Campaign in large bus depots across the US.
- Launched with a team of five certified technicians with background expertise in automotive and mechanical work, and a history of safe work with power tools, scaffolding, and PPE.
- Tasks included sourcing a team of qualified staff, facilitating training, and rework oversight.
- A core launch team and hiring support on-site reduced travel costs transferred to the customer, while ensuring proper quality control.
