This is us – your new employer

With around 480 locations in over 40 countries, thyssenkrupp Materials Services is the biggest materials distributor and service provider in the western world. The broad service spectrum offered by the materials experts enables customers to focus on their individual core business. The area of Materials Services spans two strategic areas: global materials distribution as a one-stop shop – from steel and stainless steel, tubes and pipes, nonferrous metals and specialty materials to plastics and raw materials – and tailored services in the areas of materials management and supply chain management. An extensive omnichannel architecture offers 250,000 customers worldwide cross-channel, round-the-clock access to more than 150,000 products and services. A highly efficient logistics system ensures that all requested services are smoothly integrated into customer production processes “just-in-time” or “just-in-sequence”.

We value diversity and therefore welcome all applications, irrespective of gender, nationality, ethnic and social background, religion and beliefs, disability, age, or sexual orientation and identity.

Please note that we reserve the right to remove this advert prior to the advertised expiry date, dependent on the level of response received. You are therefore advised to apply at your earliest convenience. Due to the volume of applications we receive, we are unable to supply individual feedback at the CV review stage.
