7. Environmental Requirement: Atmospheric Constituents

The equipment shall be able to operate continuously in an ambient with the atmospheric constituents O_2 down to %, CO_2 up to % and H_2 up to %.

Atmospheric constituents are not harmful to human beings inside the submarine. It is assumed that systems operate without restrictions in this environment. No system was or is explicitly qualified for this purpose.

8. Remarks or Comments:

9. Supplier Statement of Quality:

It is certified that apart from the approved deviation permits/concessions noted in block no. 3 above, the products listed above conform in all respects to the environmental contract requirements noted in block 7.
