

Our tailor
made blanks
will suit
you well

Competence Center Haan – Your partner for professional processing

As a diversified Material Trader we orient ourselves on the wishes of our customers for precise processing. We process aluminium, brass, bronze and copper materials. In accordance with your special needs and requirements we supply ready to use tailor made blanks: The Schelling FM6 allows us processing of Plates up to a dimension of 4.2 x 2.0m. Processing plates with a thickness of up to 300 mm is possible on our Schelling FM12. As additional processing we offer foiling, plate sawing and sawing of circular metal blanks and rings.

This is how we create added value for you

- Wide range of special dimensions
- Flexible and short delivery times
- High quality and dimensional accuracy
- Very small production series possible
